

## Telos Corporation Wins 2021 Fortress Cyber Security Award

June 15, 2021

### Security leader recognized for its innovative virtual obfuscation network

ASHBURN, Va., June 15, 2021 (GLOBE NEWSWIRE) -- [Telos® Corporation](#) (NASDAQ: TLS), a leading provider of cyber, cloud and enterprise security solutions for the world's most security-conscious organizations, announced today that it has been recognized by the Business Intelligence Group as a winner for the [2021 Fortress Cyber Security Awards](#) in the Network Security category for its virtual obfuscation platform, [Telos Ghost®](#). The company's cyber risk and compliance analytics platform, [Xacta®](#), was also named a finalist in the Compliance category. The industry awards program sought to identify the world's leading companies and products that are working to keep our data and electronic assets safe among a growing threat from hackers.

Telos Ghost is a virtual obfuscation network-as-a-service that protects an organization's most critical digital infrastructure and assets. Operating under the philosophy that "you can't exploit what you can't see," the solution uses a combination of patented technologies to hide the presence of resources, assets, and user identities on the network to reduce your attack surface and eliminate security risks.

"Telos is honored to be recognized alongside other companies advancing the cybersecurity agenda," said Tom Badders, senior product manager at Telos. "Capabilities like Telos Ghost are critical to protecting privacy and identity in today's remote world, and we're excited to see such strong traction not only in the public sector, but in the commercial market as well."

Over the past year, Telos has seen increased success and interest in Telos Ghost within the education, IoT, banking, healthcare and critical infrastructure markets, with developments including [a strategic partnership with Johnson Controls \(JCI\)](#) to integrate Telos Ghost into JCI's OpenBlue Cloudvue Gateway, which supports a worldwide, cloud-based video network used for surveillance and physical security. Telos also inked [a partnership with Omnilert](#) to integrate Telos Ghost into Omnilert Gun Detect, the industry's first AI-powered visual gun detection solution.

"We are so proud to name Telos as a winner in the 2021 Fortress Cyber Security Awards program," said Maria Jimenez, Chief Nominations Officer, Business Intelligence Group. "As our society continues to evolve and become more reliant on networks and data, companies like Telos are critical at providing the protection and trust consumers demand."
