

Telos Corporation Teams with Carahsoft to Expand Public Sector Reach

April 13, 2022

New Partnership Brings Enhanced Cybersecurity, Risk Management and Compliance to Public Sector

ASHBURN, Va. and RESTON, Va., April 13, 2022 (GLOBE NEWSWIRE) -- [Telos® Corporation](#) (NASDAQ: TLS), a leading provider of cyber, cloud and enterprise security solutions for the world's most security-conscious organizations and [Carahsoft Technology Corp.](#), the Trusted Government IT Solutions Provider®, today announced a partnership to expand the reach of Telos' security solutions to the Public Sector.

Under the agreement, Carahsoft will serve as one of Telos' Public Sector solutions distributors, making the company's industry-leading virtual obfuscation network-as-a-service, cyber risk management and compliance automation tools available to Federal agencies, as well as the U.S. State, Local and Education markets. Telos is available through Carahsoft's reseller partner network, NASA Solutions for Enterprise-Wide Procurement (SEWP) V, Information Technology Enterprise Solutions – Software 2 (ITES-SW2), National Cooperative Purchasing Alliance (NCPA), and OMNIA Partners contracts.

"Partnering with Carahsoft and their reseller partners allows Telos to empower and protect the Public Sector on a greater scale than ever before," said John B. Wood, CEO and chairman at Telos. "Federal agencies face a unique set of cybersecurity and compliance challenges, and they can't risk anything less than the best-of-the-best. Alongside Carahsoft, we're able to deliver exactly that, enabling these organizations to operate swiftly and securely while remaining compliant with ever-increasing industry regulations."

Up against strict cybersecurity mandates, new revisions to security and privacy standards and increased use of the cloud with work-from-home requirements, the Federal Government, as well as State, Local and Education markets will now benefit from [Telos Ghost®](#) and [Xacta®](#) to establish stronger security postures, manage IT risk and demonstrate compliance.

Telos Ghost

- Telos Ghost is a virtual obfuscation network-as-a-service that allows agencies with highly sensitive security requirements to make personnel, their devices and their work invisible on the network. The solution is ideal for use cases and applications such as working with tax records, personnel files, financial transactions and criminal justice records.

Xacta

- Xacta is the premier cyber risk management and compliance solution for the Federal government, used by a diverse range of agencies, including the U.S. State Department, the Department of Homeland Security, the FBI and the Social Security Administration. Xacta 360 works with [AWS](#) and [Microsoft Azure](#) in highly secure sovereign regions to speed time to ATO, reducing the time and effort for many burdensome tasks by up to [90 percent](#).

"Joining forces with Telos will improve outcomes for our customers and reseller partners who work to secure critical assets in Government, Education and Healthcare," said Craig P. Abod, Carahsoft President. "Given Telos' impressive track record as an iconic security leader for many years, we are pleased to be a key distributor partner in the Telos CyberProtect Partner Program to bring much needed cybersecurity modernization to the markets we serve."

Telos software and services are available through Carahsoft's SEWP V contracts NNG15SC03B and NNG15SC27B, ITES-SW2 Contract W52P1J-20-D-0042, NCPA Contract NCPA01-86, and OMNIA Partners Contract #R191902. For more information, contact the Telos team at Carahsoft at (855) 377-5865 or Telos@carahsoft.com, or visit <https://www.carahsoft.com/telos>.

Forward-Looking Statements

This press release contains forward-looking statements which are made under the safe harbor provisions of the federal securities laws. These statements are based on the Company's management's current beliefs, expectations and assumptions about future events, conditions and results and on information currently available to them. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. The Company believes that these risks and uncertainties include, but are not limited to, those described under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" set forth from time to time in the Company's filings and reports with the U.S. Securities and Exchange Commission (SEC), including their Annual Report on Form 10-K for the year ended December 31, 2021, as well as future filings and reports by the Company, copies of which are available at <https://investors.telos.com> and on the SEC's website at www.sec.gov.

Although the Company bases these forward-looking statements on assumptions that they believe are reasonable when made, they caution the reader that forward-looking statements are not guarantees of future performance and that the Company's actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this release. Given these risks, uncertainties and other factors, many of which are beyond their control, the Company cautions the reader not to place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date of such statement and, except as required by law, the Company undertakes no obligation to update any forward-looking statement publicly, or to revise any forward-looking statement to reflect events or developments occurring after the date of the statement, even if new information becomes available in the future. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically expressed as such, and should only be viewed as historical data.
